

Pathology and My Health Record

Did you know the majority of public and private pathology providers in Queensland are now uploading to My Health Record?

Benefits of uploading and viewing pathology on My Health Record

Reduced time spent gathering information

- saves administration time and cost of scanning, faxing and printing;
- administration staff can direct other health providers in your clinical network to My Health Record for results;
- improved coordination of care in and after; and
- patients will only have access to results one week after available to health providers.

Who is connected and uploading?

Sullivan Nicolaides Pathology*

Uploading – Pathology requests must be received as an [Electronic Ordering](#)

* Sullivan Nicolaides Pathology (SNP)

Your organisation will need to complete a few steps before Sullivan Nicolaides tests ordered from your practice are uploaded to My Health Record.

Step 1: Upgrade your clinical software

Best Practice (BP) - Lava SP3 and later
Medical Director (MD) - 3.17.2 and later

Note: Sullivan Nicolaides only uploads eOrders requested from BP & MD software.

Step 2: Contact Sullivan Nicolaides

Request that SNP enables uploading of pathology reports to My Health Record for your Medical Centre.
